TF2 SWB

1/10 SCALE SHORT WHEELBASE CHASSIS KIT

The TF2 SWB has both detailed styling and aggressive performance. You will find a balance of capability and performance built into every TF2. Performance of the TF2 is smooth and with its R3 single speed transmission, 4WD drivetrain, bullet-proof transfer case and quality metal components throughout. The TF2 is truly a work of art in both appearance and performance.

Every TF2 SWB is compatible with a full range of option parts designed to enhance the performance and add to the scale look of the only true scale 1/10 offroad truck... The Trailfinder 2 SWB.

The TF2 SWB Chassis kit was designed to perfectly fit the Tamiya™Jeep® body. Other short wheelbase bodies fit equally well and look great on this chassis.

Part# 933517 Available at rc4wd.com

BODY NOT INCLUDED

4X4
FOUR WHEEL DRIVE

R3 TRANSMISSION

BEAD LOCK WHEELS

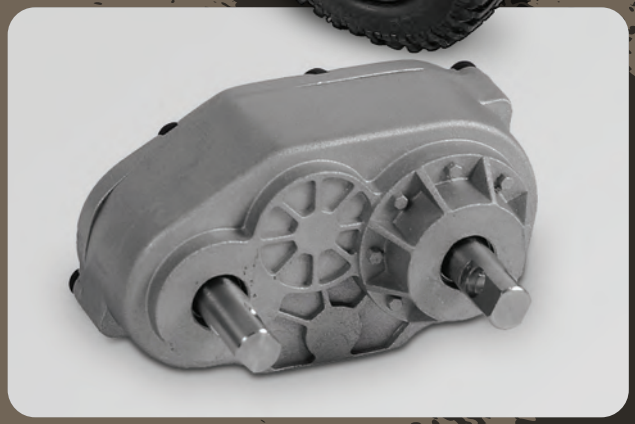
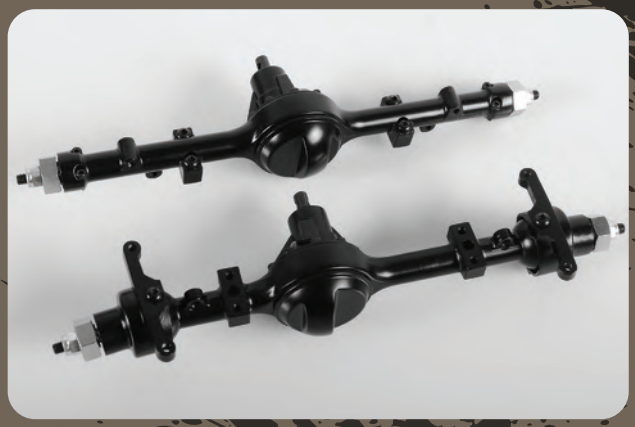
DRIVETRAIN

The R3 Single Speed Transmission comes with a cast aluminum case and new wider gears to allow for more abuse along with a Delrin spur with slipper clutch.



The TF2 includes the Hammer Transfer Case. Packed with detail, the case features a cast metal exterior and the same new 32P widened gears for durability.

Drawing on the success of the RC4WD MOA gear sets, the TF2 drivetrain has the most durable gears RC4WD has to offer so the TF2 will stay on the trail, day after day.



The most scale accurate axles on the market, the RC4WD Cast Yota II axles feature innovative round knuckles, new lower mounting points and compact offset pumpkins.

The Metal Driveshafts for the TF2 are an all new design featuring bulletproof steel universals and a new high quality plastic shaft for great drive-line angles and durability on the trail.

TRAILFINDER 2 SWB

1/10 SCALE SHORT WHEELBASE CHASSIS KIT

Optional 4 Link Kit for TF2 SWB Rear Axle

The 4 Link Conversion kit can be used to replace the stock rear leaf spring setup with a more advanced 4 link style setup.

Part Number: Z-S1053 NOT INCLUDED!

SUSPENSION

The TF2 includes a set of RC4WD Ultimate Scale Shocks. Designed for ultimate scale looks and ultimate performance. The shocks are machined from billet aluminum and internally sprung.

The TF2 Chassis is a machined billet aluminum ladder frame design with leaf springs, scale shock hoops, chassis servo mounts and hard body mounts. 4-link conversion available

The TF2 includes a set of RC4WD Black Stamped Steel 1.9 Internal Beadlock Wagon Wheels. Super tough black painted finish, aluminum internal ring and popular 5 lug design.

Every TF2 needs a tough set or rock grabbing tires and the included Mud Thrashers in X3 Compound deliver the traction as well as perfect scale looks in just the right size.
